think animal

ARKRAY will support animals with technology that has supported human beings.

Over 50 years of history in 80 countries around the world, ARKRAY has developed state-of-the-art testing equipments mainly for clinical laboratories.

Now, a new brand is born from ARKRAY for medical care and health of animals.

“thinka” is the name.

With our experience in supporting countless medical fronts and patients, in addition to a wide range of products with prominent technology built over years, we will advance current and future veterinary care.
